

Study Title	Source / Journal	Publication Year	Factor / Mechanism	Study Type	Key Findings	Source
State of the Science	Aging and Disease	2023 / 2024	Brain Insulin Resistance	Review / Position	Brain insulin resistance	1, 2
The Impact of Systemic Inflammation	Frontiers in Immunology	2021	Systemic Inflammation	Review	Comprehensive overview	2, 3
Brain atrophy in cognitively normal elderly	The American Journal of Geriatrics	2015	B12/Folate/Homocysteine	Randomized Controlled Trial	B vitamin supplementation	2, 4
Brain insulin resistance	PMC / PRISMA	2024	Brain Insulin Resistance	Systematic Review	Brain insulin resistance	2
The association between inflammation and memory	Sydney Memory Clinic	2012	Systemic Inflammation	Clinical Cohort Study	Elevated systemic inflammation	2
Vitamin deficiency and cognitive decline	Frontiers in Nutrition	2026	B-Vitamin (B6, B12)	Narrative Review	Targeted B-vitamin supplementation	2
How B Vitamins Affect the Brain	Tufts University School of Medicine	2024	Cerebrovascular Health	Article / Commentary	Highlights how B vitamins affect the brain	2
Alzheimer's and High Folate	ScienceAlert	2024	Brain Insulin Signaling	Article / Commentary	Explores the hypothesis	2
Alzheimer's as a metabolic disease	Ilkaria Functional Medicine	2024	Metabolic & Vascular	Article / Commentary	Explains the distinction	2
What role does nutrition play in Alzheimer's?	American Society on Aging	2023	Nutrition, Microglia	Article / Commentary	Details how nutrition affects the brain	2
Inflammation in Alzheimer's Disease	Alzheimer's & Dementia	2022	Inflammation & Cognition	Phase II Clinical Trial	Anti-inflammatory treatment	2
Connections between microglia and cognition	Mass General Brigham	2023	Microglial INPP5	Clinical Genetics	Identified microglial dysfunction	2
Framingham Heart Study	Not in source	Not in source	Elevated Homocysteine	Observational Study	Elevated homocysteine	5
VITACOG	Not in source	Not in source	B Vitamin Supplementation	Clinical Trial	B vitamin supplementation	5
FACT	Not in source	Not in source	B Vitamin Supplementation	Clinical Trial	B vitamin supplementation	5
Framingham Heart Study	Not in source	Not in source	B12, MMA, Homocysteine	Longitudinal Cohort	Investigating whether	5
B Vitamin and Brain Health	Not in source	Not in source	Folate (B9) Status	Observational / Cohort	Examining the influence	5
High Folic Acid and Cognitive Function	Not in source	Not in source	High Folic Acid Exposure	Collaborative Study	Investigating the effects	5
AMBAR study	Not in source	Not in source	Therapeutic Plasma Exchange	Not in source	Showed meaningful	6
A working hypothesis	Diabetes	2023	Brain Insulin Activity	Not in source	Presents a working hypothesis	7
Not in source	International Journal of Gerontology	2020	Brain Insulin Resistance	Review	Relationship between	7
Not in source	Diabetology & Metabolic Syndrome	2025	Insulin Resistance	Review	Explains type 3 diabetes	7
Not in source	JCI Insight	2020	Hypothalamic Insulin Resistance	Preclinical Mouse Model	Found that insulin resistance	7
Not in source	Nature Metabolism	2026	Disrupted Energy Metabolism	Postmortem Study	Brain tissue of those with	7
Not in source	Journal of Alzheimer's Disease	2005	Brain Insulin Resistance	Not in source	Argued that type 2	7
Not in source	Not in source	2022	Metabolic Changes	Postmortem Study	Found massive neuroinflammation	7
Not in source	Not in source	Not in source	B-vitamin supplementation	Clinical Trial / Human	B-vitamin supplementation	8
Not in source	Not in source	Not in source	B-vitamin metabolism	Consensus Statement	Deficiencies in B vitamins	8
Not in source	Not in source	Not in source	Dietary or genetic factors	Preclinical Mouse Model	Folate deficiency	8
